

2021

Infor Regional User Conference

PEWAUKEE, WI • SEPTEMBER 15-17TH

A Little History...

- *Infor Partners ISE and TriMin have been hosting a conference for years, focused on the IBM and Infor XA customer base.*
- *Similarly, the Infor User Group – focused specifically on LX, XA and System 21 – have an annual event focused on the Infor Development Framework (IDF), System-Link & Integrator tool set.*

This Year you have the unique opportunity to experience them both at the same venue!

Fast Forward to 2021...

- *Day 1 - The User Group event will be hosted in Pewaukee, Wisconsin, the day before the ISE & TriMin event. This is great technical session, focused on getting more from the native Infor Development Framework (IDF) tools as you move to the Power-Link and Net-Link tools sets in XA, LX and S21.*
- *Days 2 & 3 – ISE & TriMin’s event also has many sessions that apply to any Infor customer, including:*
 - *An entire track focused on IDF, System-Link and Enterprise Integrator*
 - *Numerous “Edge” applications, going well beyond core ERP*
 - *IBM sessions, focused on system admin and program development*
 - *State of Manufacturing message from Dr. Doug Fisher, our keynote speaker*

Pricing...

Lastly, we’ve combined pricing for a really great offering...

<i>Day 1 – User Group event</i>	<i>\$150</i>
<i>Day 2 and 3 – the Infor Conference</i>	<i>\$750</i>
<i>Combined 3-day pass</i>	<i>\$750 (a savings of \$150)</i>
<i>Promotional Lodging at the Ingleside</i>	<i>\$119 per night.</i>

This is a unique opportunity for the Infor community that runs on the IBM i platform. We’ll have 3 full days of content, focused on Infor solutions, presented by experts from across the country.
