INFORMATION SYSTEMS ENGINEERING, INC.

ISE has been in business for over 35 years by providing manufacturing companies with consultative support and resources. We have a specific focus on technology, primarily Infor XA, IBM servers, and plant floor execution. ISE is a team of over 30 resources, with hundreds of years of combined experience, all focused on systems and manufacturing.

## IBM Resources

- IBM servers: AS/400, i-Series, Power, etc. Consultative resources to guide system selection, procurement and implementation
- System Migrations: upgrades from old to new technology, system consolidation, partitioning, etc.
- Software Upgrades: Operating System Upgrades, Java updates, PTF's, firmware, etc.
- High Availability and Disaster Recovery – Solution review and design, hot/warm/cold spare, replication solutions, budgetary analysis
- Hosting Options: Migration to cloud, off-site data storage, off-site computing

## Plant Floor Solutions

- Paper-Less MES: Real-time, bi-directional communication and execution with the plant floor
- Native and complete integration with Infor XA
- Labor, Inventory, Quality and Lean functionality
- Native support for mobile and stationary devices, bar code enabled, across the plant floor

## Extending Applications

- Extensive experience with numerous applications beyond ERP
- Infor "Edge" applications
  - Infor Operating Service (Infor OS), ION, Ming.le, Workflow integration
  - Advanced Planning and Supply Chain Execution
  - Infor Configure/Price/Quote (CPQ): Integrated configuration tools for Infor XA
  - Enterprise Asset Management

## • Infor Partner Offerings

- Avalara: Sales tax calculation, auditing, compliance, exemptions, etc.
- Precisely and Maxava: HA and DR solutions for IBM i
- SPS Commerce: EDI and E-Commerce Solutions

We offer many resources and solutions for Infor XA. ISE compliments your relationship with Infor. We don't change it. The depth of our team provides years of experience in all aspects of manufacturing and Infor XA. ISE provides an expansive set of resources for on-going requirements, short-term & long-term projects, and strategic initiatives.
