

ISE | Professional Services

Why is ISE the right resource for manufacturing companies running Infor solutions on the IBM i Platform?

As a certified partner for both IBM and Infor, we offer end-to-end solutions and services for the IBM platform, including:

IBM Resources:

- Over 35 years as an IBM certified partner, starting with the AS/400 platform, now to the IBM Power Architecture, running IBM i
- Over 100 years of on-staff IBM expertise, including Solution Architects, Programmer/Analysts and Business Consultants
- Strategic partnerships with premiere IBM Solution Providers

As a certified business partner for both IBM and Infor, ISE is uniquely qualified to offer end-to-end support for your Infor XA solution running on IBM i

ISE has been in business for over 35 years, providing manufacturing companies with world class consultative support and resources, with a specific focus on IBM technology. We are a team of 30+ resources with hundreds of years of experience, all focused on systems and manufacturing.
